- 3. It is expected that a 4-H/FFA member's breeding or market animal project be in the physical possession and under the continuous daily care of the 4-H/FFA member, (or) their parents/legal guardians. Physical possession of the livestock or dairy project is defined as the following:

 - b. Animals must be housed at the physical address as indicated by the National Premises ID Number (PIN) on this form.

NOTE: By signing this form, the Exhibitor and their guardian(s) confirm that the National Premises Identification Number (PIN) that is listed is for the physical location in Kentucky where the Exhibitor's animal(s) is housed. It is also the understanding of the Exhibitor and their guardian(s) that this is a youth education project and requires daily care and maintenance responsibilities from the Exhibitor. Should the physical location where the livestock and/or dairy animal are housed change after submission of the form, the 4-H/FFA member must contact their supervising Extension Agent of FFA Advisor and complete a new Possession and Care form prior to moving the animal.

An individual who believes that the Possession and Care Guidelines are not being followed may submit a protest. The protest must be submitted in writing along with a \$500 protest fee to the Kentucky Department of Agriculture Division of Shows and Fairs. KDA will conduct an investigation of the protest. Upon completion of the investigation, if the protest is found to be valid, the protestor will receive their \$500 deposit back. If the protest is found to be invalid, the \$500 will be retained by KDA.
